

Workshop

THE ROAD TO HYDROGEN AS AN ENERGY VECTOR

Thursday 11th September 2014
CHEMPOR 2014 – FEUP

*Discussion of Hydrogen as one of the options to contribute to the transition towards a sustainable energy system offering a solution to some of the major problems of the transport sector in terms of reducing fossil energy imports and CO₂ emissions and improving urban air quality. The importance of Roadmapping is emphasized.
Financing opportunities and rules for projects under Horizon 2020 will be presented.*

Programme

Opening Session

Welcoming Address

C.M. Rangel
LNEG, Portugal

Invited Lectures

Hydrogen Roadmapping

Prof. Javier Dufour
Rey Juan Carlos University, Spain

Financing Opportunities under Horizon 2020

Prof. Vasco Ferreira
Project Manager FCH_JU, Belgium

Panel Comments and Discussion
