

H2020 – EUB 2015

EU-Brazil

Research and Development Cooperation in
Advanced Cyber Infrastructure

A graphic for Horizon 2020 featuring a glowing blue background with a central globe of Earth. The text "HORIZON 2020" is written in white, with the globe acting as the letter 'O' in "HORIZON".

HORIZON 2020

H2020 – EUB 2015

This topic is a major element for the implementation of **EU-Brazil cooperation in the area of future networks and e-infrastructures**, with the objective of developing common positions, standards and interoperable systems.

It aims as well at reinforcing the mechanisms for an efficient definition and implementation of joint R&D actions.

Coordinated proposals with balanced participation of EU and Brazilian partners should make a substantial contribution to the identified themes indicating the benefits of a joint effort.

H2020-EUB-2015

Publication date: 15 October 2014

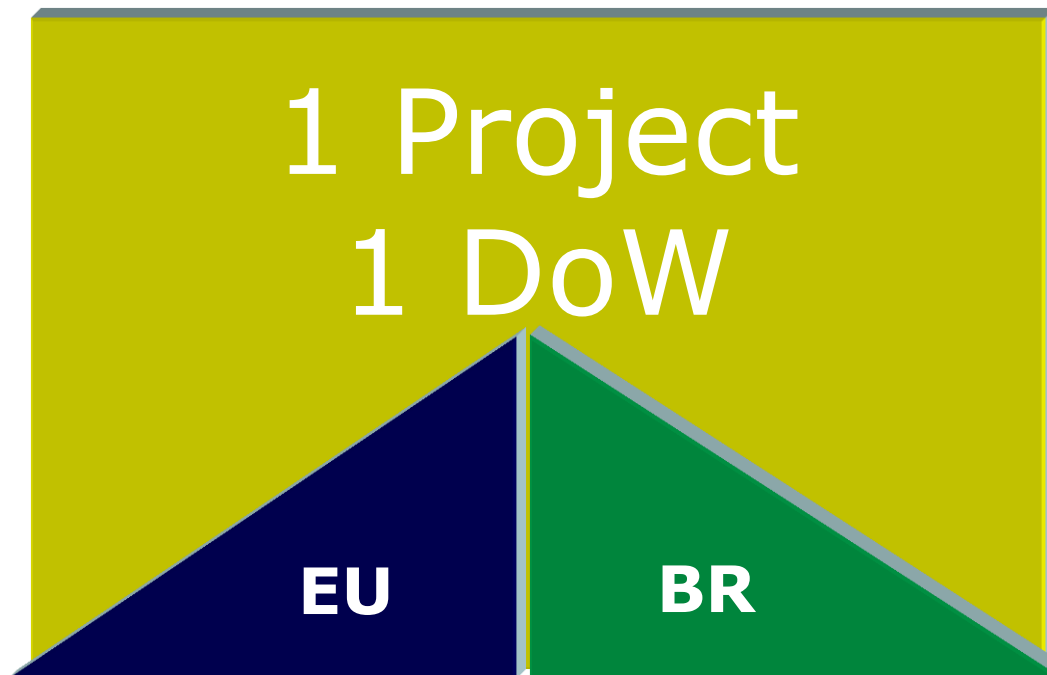

Deadline: 21 April 2015 at 17.00.00 CET

Overall indicative budget: 7 M€

Additional eligibility criterion:

- Proposals submitted to this call which do not include **coordination with a Brazilian proposal** will be considered ineligible.
- The proposed project duration shall not exceed **36 months**

ONE Project, TWO Contracts

H2020-EUB-2015

Advanced Cyber Infrastructure

Topics:

Cloud Computing, incl. security (3.5M€)

High Performance Computing (2.0M€)

Experimental Platforms (1.5M€)

Topic Coordinator

*Dr. Jorge Pereira,
European Commission, DG CONNECT*
